Estimated personnel costs:	
Estimated media costs:	
Estimated other costs:	
Estimated sponsorship income:	
Planned revenue from various income streams:	

9. CONDITIONS

All applications must comply with the Event Requirements as prepared by the EDF Competitions Committees and which are associated with the EDF By-laws, noting that these are subject to change. Any difficulties of specific compliance should be raised as early as possible to allow this to be considered by the EDF.

It is the intent that for any European Championship, countries participating are generally known and confirmed two years ahead of the scheduled date of the event. Full confirmation of participating countries will not be known until the Entry Fee has been paid in full to the EDF by the due date (31st December of the year preceding the event).

Changes outside of the direct control of the EDF may occur in this period; countries may withdraw from the event or additional participants within the overall maximum number may enter. This would be a matter of discussion between the Organising Committee and the EDF.

The match schedule within a specific European Championship is the prerogative of the EDF to set and would be discussed with the organiser to take into consideration any specific points.

Please note that you are not required to complete all information requested in this application form, but the more information that is provided, the better the decision the EDF makes will be. However, please do not provide any responses for areas where you do not have the relevant information – we expect all information provided within this application form to be true and accurate.

After receiving and evaluating all applications, the EDF will contact the listed contacts at Point 1 if any information is unclear, or more details are required. Please make sure, that your contact details are correct.

Once completed, this application should be sent to:
